

DOMO BAR

VIBIEMME
Sistemi per caffè espresso

The first home espresso machine with commercial performance.

The Domobar "Piccolo" model from Vibiemme leads the way in espresso machines for home users.

Vibiemme launched their original Domobar in 1983 as the first home espresso machine with commercial features and attributes.

The Domobar features the VBM commercial group head, which is user friendly and has excellent heat characteristics resulting in superb quality espresso based coffees.

If your wanting a text book commercial quality espresso without the cost of going into the next category of "heat exchange" machines, then the Domobar Piccolo is the best choice espresso machine.

For a classic looking, well designed home espresso machine with 30 years of reliability, The Domobar Piccolo is the perfect choice!
